

EDUCATOR PROGRAMME

ABOUT THE PROGRAMME:

The Collective Counsel's Education & Academics Pod has launched the Educator Programme for CC members to foster peer-led learning, enabling those passionate about teaching to share their legal or allied expertise with aspiring and early-stage lawyers.

The programme ensures educators are supported at every stage from shaping a structured, practice-aligned teaching module to delivering impactful learning experiences while teaching at accessible, minimal rates.

Rooted in mentorship, knowledge-sharing, and community growth, this initiative aims to build skilled legal professionals through curated educator modules, creating a sustainable ecosystem where educators teach, inspire, and earn, all within the CC learning network.

Overview:

We invite law graduates, practitioners, and educators passionate about inclusive legal education to join hands with The Collective Counsel (CC).

- Law graduates and educators will design courses in partnership with CC, focusing on practical skills, mentorship, and career readiness.
- CC will support educators in setting up their courses on a 50-50 monetary basis, ensuring equal ownership and shared responsibility.
- CC will provide a platform, outreach, and technical support to bring courses to life.
- Courses will directly contribute to building a sustainable ecosystem offering affordable, high-quality learning opportunities.

Perks for Educators:

- Access a dedicated platform to teach and shape young legal minds
- Make a meaningful impact through mentorship and real-world guidance
- Earn with flexible schedules and session-based teaching modules
- Receive step-by-step support in designing structured, practice-focused content
- Build a verified legal educator profile within the CC community
- Gain visibility, recognition, and expanded professional networking opportunities
- Receive certification and potential for long-term educator collaborations
- Become part of a growing knowledge network influencing future lawyers

Together, we can design courses that bridge the gap between academic learning and professional practice, while creating a shared value model that benefits both educators and learners.
